Introduction

We have reviewed the accompanying condensed interim consolidated statement of financial position of Dar Al Takaful PJSC (the “Group”) as at 30 June 2019, the related condensed interim consolidated income statement, condensed interim consolidated statement of comprehensive income, condensed interim consolidated statement of changes in equity and condensed interim consolidated statement of cash flows for the six months period then ended. Management is responsible for the preparation and presentation of these condensed interim consolidated financial statements in accordance with International Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this condensed interim consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Other matter

The condensed interim consolidated financial statements of the Group for the six months period ended 30 June 2018 and the consolidated financial statements for the year ended 31 December 2018 were reviewed and audited by another auditor whose review report dated 12 August 2018 and audit report dated 24 March 2019 expressed an unmodified conclusion and unqualified opinion respectively.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 “Interim Financial Reporting”.

Farouk Mohamed

Dar Al Takaful PJSC
Condensed interim consolidated financial statements (Unaudited)
Notes to the condensed interim consolidated financial statements
For the period ended 30 June 2019

1 Legal status and activities

Dar Al Takaful PJSC (the “Company”) was incorporated as a public joint stock company. The Company carries out general takaful (insurance), retakaful (reinsurance) and investments in accordance with the teachings of Islamic Shari’a and within the provisions of U.A.E. Federal Law no. 6 of 2007 relating to takaful companies and takaful agents and the Memorandum and Articles of Association of the Company. The address of the Company is P.O. Box 235353, Dubai, United Arab Emirates.

The Company obtained its commercial license on 23 July 2008 and commenced operations on 1 September 2008.

The Company mainly issues short term takaful contracts in connection with non-life takaful such as motor, marine, fire, engineering, medical and general accident risks (collectively known as general takaful). The Company also invests its funds in investment securities.

The Company with its subsidiary are together referred to as the “Group” in these condensed interim consolidated financial statements. At 30 June 2019, the Company had the following subsidiary:

Name of subsidiary	Proportion of ownership interest		Country of incorporation	Principal activities
	30 June 2019	31 December 2018		
Auto Crew Workshop LLC	100%	100%	UAE	Auto mechanical repairing workshop

2 Basis of preparation

The condensed interim consolidated financial statements are for the six months period ended 30 June 2019 and are presented in United Arab Emirate Dirham (AED), which is also the functional currency of the Company. These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’ and do not include all of the information required in annual financial statements in accordance with IFRS and should be read in conjunction with the financial statements of the Company for the year ended 31 December 2018. Further, results for interim periods are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2019.

The Group has not early adopted any version of IFRS 9 and the activities of the Group are predominantly connected with insurance on 30 June 2019 therefore the Group has opted for the temporary exemption from the application of IFRS 9 and defer the implementation date of IFRS 9 until 31 December 2021.

Basis of consolidation

The condensed interim consolidated financial statements comprise the financial statements of the Group and its subsidiary as at 30 June 2019.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns

Dar Al Takaful PJSC
Condensed interim consolidated financial statements (Unaudited)
Notes to the condensed interim consolidated financial statements
For the period ended 30 June 2019

2 Basis of preparation (continued)

Basis of consolidation (continued)

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee
- rights arising from other contractual arrangements
- the Group's voting rights and potential voting rights

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

3 Significant accounting policies

These condensed interim consolidated financial statements have been prepared in accordance with the accounting policies adopted in the Company's most recent annual financial statements for the year ended 31 December 2018. Certain amendments to accounting standards and annual improvements, as disclosed in the Company's most recent annual financial statements for the year ended 31 December 2018, are applicable on the Company but do not have any material impact on these condensed interim consolidated financial statements.

Interim reporting

The accounting policies used in the preparation of the condensed interim consolidated financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2018 except for the changes in the accounting policies implemented by management from 1 January 2019.

Critical accounting estimates and judgments in applying accounting policies

The Company makes estimates and assumption that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may substantially be different.

Classification of properties

In the process of classifying properties, management has made various judgments. Judgments are needed to determine whether a property qualifies as an investment property, property and equipment, property under development and/or property held for sale. Management develops criteria so that it can exercise that judgment consistently in accordance with the definitions of investment property. In making its judgment, management has considered the detailed criteria and related guidance set out in IAS 40 - Investment Property, with regards to the intended use of the property.

Outstanding claims and technical provisions

The estimation of ultimate liability arising from the claims made under takaful contracts is the Company's most critical accounting estimate. There are sources of uncertainty that need to be considered in the estimate of the liability that the Company will eventually pay for such claims. Estimates have to be made both for the expected ultimate cost of claims reported and for the expected ultimate cost of claims incurred but not reported ("IBNR") at the end of each reporting period.

3 Significant accounting policies (continued)

Critical accounting estimates and judgments in applying accounting policies (continued)

Outstanding claims and technical provisions (continued)

Liabilities for unpaid reported claims are estimated using the input of assessments for individual cases reported to the Company and management estimates based on internal and external actuarial assessment, taking into account the historical data of the claims reported and settlement pattern. Such method takes into account the best estimates of the future contractual cash flows estimated based on the historical data. At the end of each reporting period, prior year claims estimates are reassessed for adequacy and changes are made to the provision.

Impairment losses on Takaful receivables

The Company reviews its Takaful receivables on a regular basis to assess whether a provision for impairment should be recorded in the statement of income. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about the probability of default and probable losses in the event of default, the value of the underlying security, and realisation costs.

In addition to specific provisions against individually significant Takaful receivables, the Company also makes a collective impairment provision against Takaful receivables which, although not specifically identified as requiring a specific provision, have a greater risk of default than when originally granted. The amount of the provision is based on the historical loss pattern for Takaful receivables within each grade and is adjusted to reflect current economic changes.

Liability adequacy test

At the end of each reporting period, liability adequacy tests are performed to ensure the adequacy of Takaful contract liabilities. The Company makes use of the best estimates of future contractual cash flows and claims handling and administration expenses, as well as investment income from the assets backing such liabilities in evaluating the adequacy of the liability. Any deficiency is immediately charged to the statement of income.

Valuation of unquoted equity instruments

Valuation of unquoted equity investments is normally based on recent market transactions on an arm's length basis, fair value of another instrument that is substantially the same, expected cash flows discounted at current rates for similar instruments or other valuation models. In the absence of an active market for these investments or any recent transactions that could provide evidence of the current fair value, management estimates the fair value of these instruments using expected cash flows discounted at current rates for similar instruments or other valuation models.

18 Segment information

For management purposes the Group is organised into three business segments, general takaful, employee benefits and investments. The general takaful segment comprises the takaful business undertaken by the Group on behalf of the policyholders. Investments comprise investment and cash management for the Group's own account. No operating segments have been aggregated to form the above reportable operating segments.

Segment performance is evaluated based on profit or loss which in certain respects is measured differently from profit or loss in the financial statements.

Except for Wakala fees, Mudarib's share and Qard Hassan, no other inter-segment transactions occurred during the period. If any other transaction were to occur, transfer prices between operating segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment income, expenses and results will include those transfers between business segments which will then be eliminated on consolidation as shown on the next page.

19 Fair value measurements

Financial assets measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. This grouping is determined based on the lowest level of significant inputs used in fair value measurement, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets;
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:
